

Join **4Secure** for cyber security networking drinks aboard HMS Belfast.

4Secure invite you to our industry revered annual cross-domain symposium.

Once again we invite you to join us aboard HMS Belfast in the heart of London for a day of cyber security networking, the latest data diode based network defence innovations, demonstrations, and of course, private use of the deck aboard HMS Belfast for networking drinks against the backdrop of London's iconic skyline.

In addition we look forward to welcoming our industry partners, a serving veteran of HMS Belfast for an insight into life on the ship, as well as a private tour of the ship herself.

RSVP as soon as possible to avoid disappointment. Please email enquiries@4-secure.com or alternatively call us on;

0800 043 0101

A black silhouette of the London skyline, including the London Eye, the Gherkin, and Tower Bridge, set against a light background.
